PARLIAMENT OF AUSTRALIA · THE SENATE

John R. Coulter

Australian Democrat Senator for South Australia

Dear

John

I am writing to seek your comments on the enclosed private bills, the *Biological Diversity Conservation Bill 1994* and the *Biological Diversity (Consequential Amendments) Bill 1994*.

The two bills have been developed to implement the Convention on Biological Diversity and the National Strategy to Conserve Australia's Biological Diversity.

The *Amendment Bill* amends a number of existing Federal Acts which are relevant to the conservation of biological diversity, namely the *Environment Protection (Impact of Proposals) Act 1974*, the *Endangered Species Protection Act 1992*, the *Australian Heritage Commission Act 1975*, and the *Income Tax Assessment Act 1936*.

The Federal Environment Minister has expressed interest in developing legislation dealing with biological diversity conservation. I hope that this package of Bills will be considered a model for the development of government legislation.

I would be very grateful to receive your comments. I understand that your time is precious and these Bills cover a wide range of issues. If you are unable to comment on all the clauses, I would nevertheless appreciate your comments on those parts of the Bills which are of particular interest and concern to you.

The deadline for comment is 21 October. I plan to table the Bills in the Senate before the end of the current Parliamentary session which closes on the 8th of December.

Please feel free to ring me at any time on (08) 370-8055 if you have any queries or wish to discuss any matters relating to the legislation with me personally.

Please send your comments to my Melbourne office. Thank you in anticipation of your response.

Yours sincerely,

Inogen Zethov

for John Coulter  
Senator for South Australia

## VICTORY AT LAST ! (sort of)

The owls know that Croobyar Forest is a safe place to hang.

From the onset, it was obvious that Forestry wished to avoid conflict, hence they entered into negotiations with us. As a result of this and interaction with the locals;

- \* a 3rd rare owl was confirmed in the compartment and logging operations stopped indefinitely by NPWS
- \* Forestry withdrew the application for woodchip licences for 10 compartments within the Budawang Wilderness
- \* The local community were empowered to form a Forest Watch group to keep an eye on the logging and call us if any more hacking in lush forest occurs
- \* We had fun fun fun in the forest
- \* We pissed off Forestry

# **COME TO THE NEXT NEFA MEETING !**

## **8th - 9th October, 1994**

### **at Toonumbah (via Kyogle)**

The next scheduled North East Forest Alliance meeting will be held at Che Guava community, Toonumbah, near Kyogle.  
Ph: (066) 333 292

It has been a long time since we've had a full NEFA meeting on the Far North Coast and we feel that we've lost contact with a lot of people particularly in the Byron, Nimbin, Lismore, Grafton area as a result. With an important state election looming, it is hoped that this meeting can attract a large number of our supporters.

We now have details of all logging planned for the Far North Coast for 1995, your favourite spot is probably on there so come along and be informed.

Even if you are too busy to take on specific jobs for NEFA we would like to see you just so we can exchange information, strengthen our local network and hopefully have some fun doing it.

Toonumbah is only 70 km from Lismore, so please make the effort.

**See you there!**

**How to get there:** At the intersection at the bottom of the main street of Kyogle there is a Mobil petrol station, turn sharp left from outside the Mobil and head out under the railway bridge, past the bowls club, over the bridge and then follow the green arrows to the meeting.
