CC: Copies of Harvesting Plans Ewingar SF 604-608 & 656, 657, 660-664.

I refer to your request for the above Harvesting Plans.

Unfortunately the Harvesting Plan for Ewingar 604-608 has not been approved by the Planning Manager at this stage, so a copy is not available. I have attached a copy of the Flora & Fauna report along the the Operational Maps. A completed full Plan will be forward when approved.

Enclosed is a copy of Harvesting plan Ewingar SF 656, 657, 660 - 664.

I will summarise harvesting in these compartments ;

Cpt 656 : Wet weather has restricted access & the cpt has not been started to cate.

Cpt 657 : Harvesting is complete.

Cpt 660 : Harvesting has not commenced & is unlikely due to the poor volumes.

Cpt 661 : Harvesting is current with approx 2 weeks remaining.

Cpt 662 : Harvesting is complete.

Cpt 663 : Harvesting is complete.

Cpt 664 : Harvesting is complete.

If you have any further queries please contact me.

Re :Request for Information- Harvesting Planning.

I refer to our telephone conversation of the 6th January 1998.

Flora and fauna reports for Ewingar plans 604-608, 625-628, 665-668, 678 & 679 have been mailed to you today. The Ecology Team are currently surveying a number of areas and their results will be passed on as time permits.

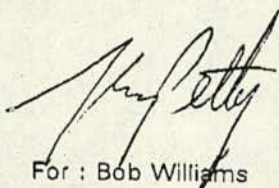

In relation to your query regarding the Brush Tailed Rock Wallaby feeding habitat and the Mask Owls, I have passed your concerns onto Ecologist Ken McCray for his recommendations. A completed plan will be forwarded to you in the near future.

A draft order of working for the next twelve months will be available to all stake holders on the 15th January 98.

All efforts will be made to pass on flora & fauna reports as well as relevant harvesting plans. To prevent any breakdowns in communications you may need to remind me on a needs basis from time to time so information flows freely.

Thankyou for your patience.

Cheers,

For : Bob Williams
